## ABOUT ME

Ever since I was a little kid, working with system design has been my passion. I assembled many jigsaw puzzles, Lego sets and solved a lot of IQ riddles. I loved to decompose complex problems into parts and to synthesize different ideas and findings into a whole. When I turned 16, I was very driving and creative. That is why I have chosen a profession of a marketer and enrolled at the University.

I've developed an extensive range of soft skills while I've been working as an offline marketer, digital marketer and marketing manager in the period from 2013 to 2018. My 9+ years overall marketing experience includes projects in such areas as wholesale trade in oil products, entertainment, trading, real estate, spare parts production, industrial machinery and insurance. Later on I realized that I was losing the ambitious engineer within me.

I decided to make a career change and became a Full Stack Developer. My true passion for curiosity, innovations, and the frontier of technology is closely aligned with interests and principles of the coders community. I love being in a constantly changing, dynamic startup environment. Problem-solving capacity enables me to find a solution that is efficient, feasible, and optimized. My marketing background includes comprehensive knowledge of user psychology. It allows me to understand the factors influencing how users utilize products and features.

On a personal level I am a very empathetic person with developed values of teaching and helping others. I speak three languages and interact effectively with people of different cultures. I permanently live in a low-cost Central Asian country (Uzbekistan), thanks to which I am able to offer my services at most affordable prices. In the future I would like to enhance my knowledge of web development and to learn more about React and Node.js. I am open to **fully remote job** opportunities.

## SKILLS

### FRONTEND

React hooks | Redux Toolkit | React Query | React Router | Webpack | Jest | Cypress E2E testing | React testing library | Tailwind CSS | Bootstrap | ES6 | TypeScript | HTML5 | CSS3 | UI/UX best practices

### BACKEND

Node.js | Express | MongoDB | REST API | Apollo | GraphQL

### OTHER TECH SKILLS

Python | Algorithms | Data structures | Debugging | System Design | Object-Oriented Programming | Linux | Bash | Git | Jira | Trello | Integration testing | Unit testing

## PORTFOLIO

[stepanaromanov.github.io/portfolio](https://stepanaromanov.github.io/portfolio)

## PAST EXPERIENCE

### Full Stack Developer

September 2022 - till present

Projects I have built so far:

- Bloglist app (React, Node.js, Express, MongoDB, React Query)
- Patients app (React, Node.js, Express, TypeScript)
- Tasks tracker (React, TypeScript)
- Expenses calculator (React, TypeScript, Tailwind CSS)
- Hotel management app (work in progress)

### Marketing

September 2018 - September 2022

Web Development experience:

- Creating landing pages (wix.com)
- Improving landing pages based on conversion funnel data
- Optimizing website HTML, CSS, JavaScript code based on Google PageSpeed Insights
- Tuning performance of wordpress plugins
- Managing freelancers/contractors
- Working with SEO tags
- UI templating

Python/SQL Data Analysis experience:

- Data pre-processing and cleaning
  - Exploratory data analysis
  - Data visualization
  - Statistical data analysis and Hypothesis testing
  - Linear regressions, Predictions and forecasts
  - PPC and Targeted Ads A/B testing
  - UX analysis (SQL)
  - CR, DAU, MAU, ARPU, ARPPU, RFM (Unit economics)
  - Customer segmentation, Churn Rate, Retention Rate, LTV
- *Data Analyst portfolio is also available on my Github*

## EDUCATION

### Saint-Petersburg State University of Service and Economics - Marketing

2008-2013

## CERTIFICATIONS

[Responsive Web Design 2022](#) (Freecodecamp.org)

[Javascript Algorithms and Data Structures 2022](#) (Freecodecamp.org)

[Full Stack Open 2023](#) (University of Helsinki)

[GraphQL 2023](#) (University of Helsinki)

[TypeScript 2023](#) (University of Helsinki)

## LANGUAGES

English: Advanced (C1)

Russian: Native speaker (C2)

Polish: Professional working proficiency (B2)
